I am an eclectic person, and I am passionate about getting an intimate understanding of the world with the help of data and leveraging the knowledge gained to enhance systems that affect different aspects of our lives. My outlook is that there's always room for improvement, and my approach towards problems, in general, is logical and data-driven. I am also an empathetic person, which I believe has helped me become an effective communicator.

EXPERIENCE

16 JULY 2018 - 18 AUGUST 2019

CS ASSOCIATE, AMAZON DEVELOPMENT CENTER INDIA

My role was to advise customers on making the best out of their compromised gift cards, accounts, and promotions. Worked with a program manager to help improve the mechanism of pushing prime membership promotions.

EDUCATION

AUGUST 2021

FOUNDATIONAL LEVEL IN PROGRAMMING AND DATA SCIENCE, IIT MADRAS

Completed foundational level (which has eight math, statistics, and programming courses spanned over two four-month terms) with a CGPA of 8.1.
